

**40
GALLON**

All-in-One

**Enjoy extra fuel and extra storage
with a fuel tank and tool box combo!**

The all-in-one auxiliary fuel tank and tool box combo is the best of both worlds, providing more fuel and secure storage for all your adventures.

Our 40-gallon fuel tank and tool box combo sits nearly flush with most pickup bed rails and won't interfere with most standard fifth wheel hitches. With 6 cubic feet of storage space and locking paddle handles, you can rest easy knowing your cargo and fuel is secure.

The 40-gallon fuel tank and tool box operates with our TRAX 4™ operating system. Based on the capacity of your pickup's main fuel tank and the capacity of the Transfer Flow auxiliary fuel tank, the TRAX 4™ system will transfer fuel at pre-determined levels while the vehicle is in operation.

Want to know the status of your onboard fuel systems? Use our TRAX 4™ app to monitor your pickup's fuel capacity on your smart phone. An optional fuel level monitor LCD is also available!

Built from ReliaSteel®, high-yield U.S. aluminized steel, and powder coated black, Transfer Flow tank systems offer superior corrosion resistance and strength.

SHORT AND
LONG BED

Fits: 2008–2021 Ford, GM/Chevy, Ram

Fuel: Diesel

Ship Weight: 202 lb.

Dimensions: 59" L × 21" W × 21" H

Part Number: 080-01-16188

Textured Coating Part Number: 080-BL-16188
