

Door/Window Awning Setup Instructions

Welcome to the Flock!

Let's get your rig sorted.

Roofnest Door/Window Awning Setup Instructions

The canvas door on either side of your Roofnest can be extended to form a shade/rain awning with the included Awning Poles.

Here is how to set up the awning(s):

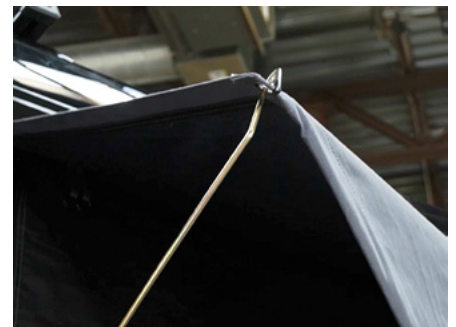

Step 1

- Insert Awning Pole into small hole in the metal banding of the lower shell near the edge of one door. The pole goes in at a STEEP angle - make sure the pole is fully inserted – you may have to twist the pole.

Step 2

- Insert the hook into the grommet at the bottom corner of the canvas door. It will feel like you are bending the pole – the tension is what keeps the awning extended.

Step
3

- Repeat this process for the other side of the door with another Awning Pole.

Step
4

- Enjoy the shade!

Thank you so much for being a Roofnest customer!

Please stay in touch and let us know where your travels take you – we love to get photos! We also have a great community online where customers post photos, share stories, tips, and good vibes – the Roofnest Flock – find it on Facebook by searching for “Roofnest Flock”.
