

Ring & Pinion Limited Warranty and Limitations

Eaton expressly warrants each Eaton ring & pinion set to be free from defects in materials and workmanship for a period of 12 months from the date of initial retail purchase when used on private passenger cars and light trucks under normal operating conditions.

Eaton's obligation under this warranty is limited to replacement of the defective product in accordance with this warranty. Costs of removal and installation are not included, and any incidental and consequential damages are excluded under this warranty, regardless of when the failure occurs. This warranty has no cash value. This warranty does not apply to products that have been modified, improperly applied or installed on vehicles used for commercial or racing purposes.

To make a claim under this warranty, return the defective product with the dated original receipt to the dealer or retailer from whom it was

purchased for verification and exchange under this warranty.

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. Any implied warranties you may have under state law are limited to the same duration as this warranty. Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of

incidental or consequential damages, so the above limitations and exclusion may not apply to you.

Eaton may contact warranty-serviced consumers to conduct customer satisfaction surveys relating to product and warranty service. Survey activity will provide valuable feedback and help measure the level of consumer satisfaction in different markets.
